A A D DINITHI DULASHA

Information Technology Undergraduate | Aspiring Software Developer

Pannipitiya, Colombo, Sri Lanka | +94 71 319 4969 | dulashad@gmail.com
LinkedIn: linkedin.com/in/dulasha-assalaarachchi-29458733b | GitHub: github.com/Dulasha-d

PROFESSIONAL SUMMARY

Information Technology undergraduate (Higher National Diploma, SLIATE ATI Dehiwala) with academic project experience across the Software Development Life Cycle (SDLC), covering mobile (Flutter, Firebase), desktop (Java, C#, MySQL) and web (HTML, CSS) applications. Skilled in authoring technical documentation (SRS, WBS) and mapping workflows to architect relational databases. Holds a Diploma in ICT and a UI design certification in Figma. Seeking a software development internship to apply structured problem-solving and modern UI/UX principles to real-world digital products.

TECHNICAL SKILLS

Programming Languages: Java, C#, Dart, Python, PHP, JavaScript
Mobile & Web Development: Flutter, HTML, CSS, Responsive Web Design, UI Design (Figma)
Desktop & Connectivity: Java Swing, C# Windows Forms, JDBC
Databases & Cloud: MySQL, SQL, Firebase Authentication, Cloud Firestore
Software Engineering: SDLC, Software Requirements Specification (SRS), Work Breakdown Structure (WBS), Relational Database Design
Tools: Git, GitHub, Visual Studio Code, Visual Studio, NetBeans
Soft Skills: Communication, Teamwork, Problem-Solving, Attention to Detail
Languages: Sinhala (Native), English (Professional Working Proficiency)

PROJECTS

Enterprise Meal Management System (EMMS) | Flutter, Dart, Firebase Authentication, Cloud Firestore, Firebase Storage

- Developed a role-based meal management application for mobile and web to automate manual meal planning for employees, kitchen staff and administrators.
- Built an employee portal for time-restricted meal ordering, order cancellation and monthly deduction reports, with a live kitchen dashboard showing order preparation status in real time.
- Added admin controls for employee account management, visitor logging, overtime tracking and audit reporting.

Inventory System | Java (Swing), MySQL (JDBC), iText, NetBeans

- Developed a desktop inventory management application for stock tracking, customer records and sales processing for a small business.
- Implemented secure user login, product category management, a price catalogue and PDF bill generation using iText.

Oceana Shop | C# (Windows Forms), .NET Framework 4.5.2, Visual Studio

- Built a Windows desktop retail application with staff login, product catalogue browsing and an interactive billing screen with loyalty member rewards.

ABC Shopping Store | HTML, CSS

- Designed a multi-page responsive website layout with curated catalogue navigation for cosmetics and skincare products.

EDUCATION

Higher National Diploma in Information Technology (HNDIT)
SLIATE, Advanced Technological Institute (ATI) Dehiwala, Sri Lanka | 2024 – Present

Diploma in Information and Communication Technology (DICT)
AQUINAS College of Higher Studies, Borella, Sri Lanka | 2024

GCE Advanced Level, Commerce Stream (ICT B, Accounting C, Economics C)
Sandalanka National College | 2022

CERTIFICATIONS AND TRAINING

- Python for Beginners | University of Moratuwa (CODL) | October 2026
- User Interface Design with Figma | Alison | June 2025
- Handling, Storing and Managing Data for Information Management | Global Nutrition Cluster and UNICEF | May 2024
- Web Design for Beginners | University of Moratuwa (CODL)
- QA & Software Testing Field Visit | 99X Sri Lanka (Academic Industry Visit): software testing fundamentals, SDLC/STLC, QA workflows, Agile/Scrum and CI/CD concepts
